

## Program Updates

*Our parents asked and  
CRIA has delivered!*

***Flexibility. Affordability. Quality.***

# Flexibility

## CRIA Parents asked for a flexible program:

- Family travel
- Possibility of extended illness
- Short-term financial constraints
- A less strict Absentee Policy

## The new CRIA Online program complements our campus-based program:

- Easy and smooth transitions between the CRIA Online Program & campus-based program
- Ability to leave for a month or more without missing a beat
- CRIA Online students can easily transition to the main campus at any time
- Main campus students can switch any calendar month to a CRIA Online student (Conditions apply for December, April or June)

# Affordability

- Pandemic times have created new opportunities for a blended approach to learning
- **Next generation** learning platforms are implemented for the 2020-21 school year and beyond
- New timetabling of classes has enabled CRIA to gain operating efficiencies while improving quality
- Our flexible staff of certified teachers deserves deep gratitude for the time and effort to train up on new platforms, and
- Our staff is incurring cuts in pay for the first two months of school to enable us to provide the new Tuition and Fees Policy

# Quality

- CRIA has invested in the award-winning Edgenuity Learning platform
- Aligned to our MAP assessment objectives to individualize learning for every CRIA student
- Aligned to Virginia standards of learning
- Aligned with Advanced Placement and Grand Canyon University dual enrollment courses offered at CRIA
- Smooth transition, with high quality assurance, between remote learning times for those who get sick, must travel, or under government-mandated quarantines
- Smooth transitions between our new CRIA Online program and our campus-based program
